Washington, DC 20554

Re: MB Docket No. 10-56

Dear Chairman Genachowski,

It recently has been brought to my attention that the FCC is reviewing the proposed joint venture between Comcast and NBC Universal.

While I have no position on the joint venture, I do want to provide you with a glimpse of what a good neighbor and friend Comcast has been to Delaware Technical & Community College. Giving back to the community is an integral part of Comcast's culture. I would like to share with you two examples, experienced by the College, of Comcast's commitment to education through giving back and forming meaningful partnerships here in Delaware.

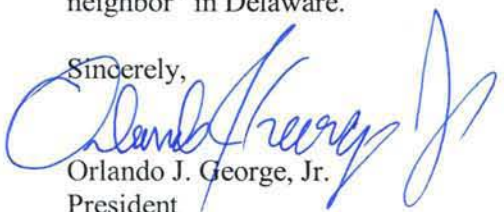

Over the years, Comcast has had a direct impact on the College's student population through scholarships and text book programs, tutoring services, and much needed instructional equipment.

Another example can be found in our unique, award-winning partnership initiated by Comcast-Homework TV (HTV), which allowed the College to connect with hundreds of middle and high school students every afternoon, four days a week, to receive real-time homework assistance through the use of volunteer teachers and upper-grade students from local school districts. While Delaware Tech broadcasts programs from its state-of-the-art studio, Comcast provided the infrastructure and operational assistance necessary to launch the venture for countless students and sustain it for eight very successful years.

As you can see, we have had a long-standing partnership with Comcast and greatly value them in helping us to fulfill our mission of providing access, opportunity, excellence, and hope to members of the community throughout Delaware.

I hope that I have been able to provide you with one perspective of how Comcast fills the role of a "good neighbor" in Delaware.

Sincerely,

Orlando J. George, Jr.
President
